

Editor

Professor Mark Cross
School of Engineering,
University of Wales Swansea,
Swansea, UK
m.cross@swan.ac.uk

Associate Editors

Decision Sciences

Professor C.J. Malmberg
Department of Decision Sciences
and Engineering Systems,
Rensselaer Polytechnic Institute,
Troy, New York, USA

Computational Fluid Dynamics

Professor N.C. Markatos
Department of Chemical Engineering,
Technical University of Athens,
Athens, Greece

Computational Modelling

Professor J.I. Ramos
Departamento de Lenguajes
y Ciencias de la Computación,
Universidad de Málaga,
Málaga, Spain

International Editorial Board

Professor M.B. Abbott
International Institute for Hydraulic
and Environmental Engineering,
Delft, The Netherlands

Dr. R.J. Batterham
Research & Technology Development
Rio Tinto Limited,
Melbourne, Victoria, Australia

Professor P. Bettess
School of Engineering,
University of Durham,
Science Laboratories,
South Road, Durham, UK

Professor J.L. Chenot
CEMEF, Ecole des Mines de Paris,
Sofia Antipolis, France

Professor J.A. Dantzig
Department of Mechanical and
Industrial Engineering,
University of Illinois at Urbana-Champaign,
Urbana, Illinois, USA

Professor R.P. Davis
Department of Industrial Engineering,
Clemson University,
Clemson, South Carolina, USA

Professor F. Durst
Universität Erlangen-Nürnberg,
Erlangen, Germany

Professor R.T. Fenner
Department of Mechanical Engineering,
Imperial College of Science,
Technology and Medicine,
London, UK

Professor C.A.J. Fletcher
Centre for Advanced Computation in
Engineering and Science,
UNSW, Sydney, Australia

Professor G. Maier
Department of Civil Engineering,
Milan Polytechnic, Milan, Italy

Professor G.D. Mallinson
Department of Mechanical Engineering,
University of Auckland,
Auckland, New Zealand

Professor S. McKee
Department of Mathematics,
University of Strathclyde,
Glasgow, UK

Professor M.D. Mikhailov
Applied Mathematics Centre,
Sofia, Bulgaria

Professor K. Morgan
Department of Civil Engineering,
University College of Swansea,
Swansea, UK

Professor A.O. Moscardini
School of Mathematics and
Computer Studies,
University of Sunderland,
Sunderland, UK

Professor J.C.J. Nihoul
Environmental Programme,
University of Liège, Liège, Belgium

Professor S.V. Patankar
Department of Mechanical Engineering,
University of Minnesota,
Minneapolis, Minnesota, USA

Professor K.A. Pericleous
Centre for Numerical Modelling
and Process Analysis,
University of Greenwich,
London, UK

Professor H. Pina
Department of Mechanical
Engineering,
Escola Superior Tecnica,
Lisbon, Portugal

Dr. P. Schwarz
Division of Mineral Engineering,
Process Modelling and Developments,
CSIRO, Clayton South,
Victoria, Australia

Professor D.B. Spalding FRS
CHAM LTD,
Wimbledon, London, UK

Dr. G. Symm
National Physical Laboratory,
Teddington, Middlesex, UK

Professor M. Tanaka
Department of Mechanical
Engineering, Shinshu University,
Nagano, Japan

Professor J.M.T. Thompson FRS
Department of Civil and Municipal
Engineering, University College,
London, UK

Professor V.R. Voller
Department of Civil Engineering,
University of Minnesota,
Minneapolis, Minnesota,
USA

Aims and Scope: *Applied Mathematical Modelling* is a monthly publication focusing on research related to the mathematical modelling of engineering and environmental processes, manufacturing, and industrial systems. A significant emerging area of research activity involves multiphysics processes, and contributions in this area are particularly encouraged. *Applied Mathematical Modelling* covers a wide spectrum of subjects including heat transfer, fluid mechanics, CFD, and transport phenomena; solid mechanics and mechanics of metals; electromagnets and MHD; reliability modelling and system optimization; finite volume, finite element, and boundary element procedures; decision sciences in an industrial and manufacturing context; civil engineering systems and structures; mineral and energy resources; relevant software engineering issues associated with CAD and CAE; and materials and metallurgical engineering.

Publication Information: *Applied Mathematical Modelling* (ISSN 0307-904X) is published *monthly* for \$1539 by Elsevier Inc., 360 Park Avenue South, New York, NY 10010-1710. Further information on this journal is available from the Publisher or from the Regional Sales Office nearest you or from this journal's website (<http://www.elsevier.com/locate/apm>). Information on other Elsevier products is available through Elsevier's website (<http://www.elsevier.com>). Periodicals Postage Paid at New York, NY and at additional mailing offices. POSTMASTER: Send address changes to *Applied Mathematical Modelling*, Elsevier, 6277 Sea Harbor Drive, Orlando, FL 32887-4800.
